

608-351/608-352 Series

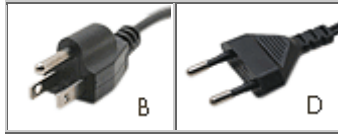

Temperature controlled soldering station

608-351 LED display

608-351 Digital display

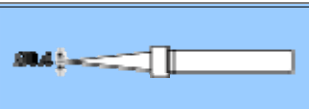

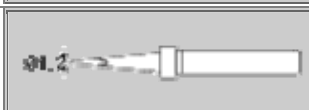

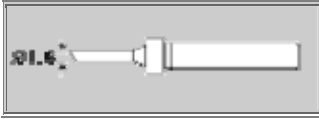

- Adjustable temperature and a variety of available tips.
- Overheat protection with closed loop temperature control.
- Replacement part: 508-351-T spare tip, 508-351A-I spare iron, 508-352-H heating
- Grouded tip for soldering static sensitive devices.
- Improved circuit design for greater temperature stability.
- Built-in tray with cleaning sponge.

Model No.	Voltage(V)	Consumption	Temperature	Weight(g)	Individual Packing	Station Size	Standard Plug
